The Climate Crisis in 2024

- Earth Overshoot Day: August 1st – we are using unnecessary more resources than our planet can replenish.
- Unpredictable climate tipping points threaten our future with billions going to trillions of damage each year and an Unknown Fatal Tipping Point.
- 60% of global projects fail, causing immense CO2 emissions and missed opportunities leading to FATAL tipping point.

This Call for Immediate Global Action

BLUE SKY INDEX (BSI)

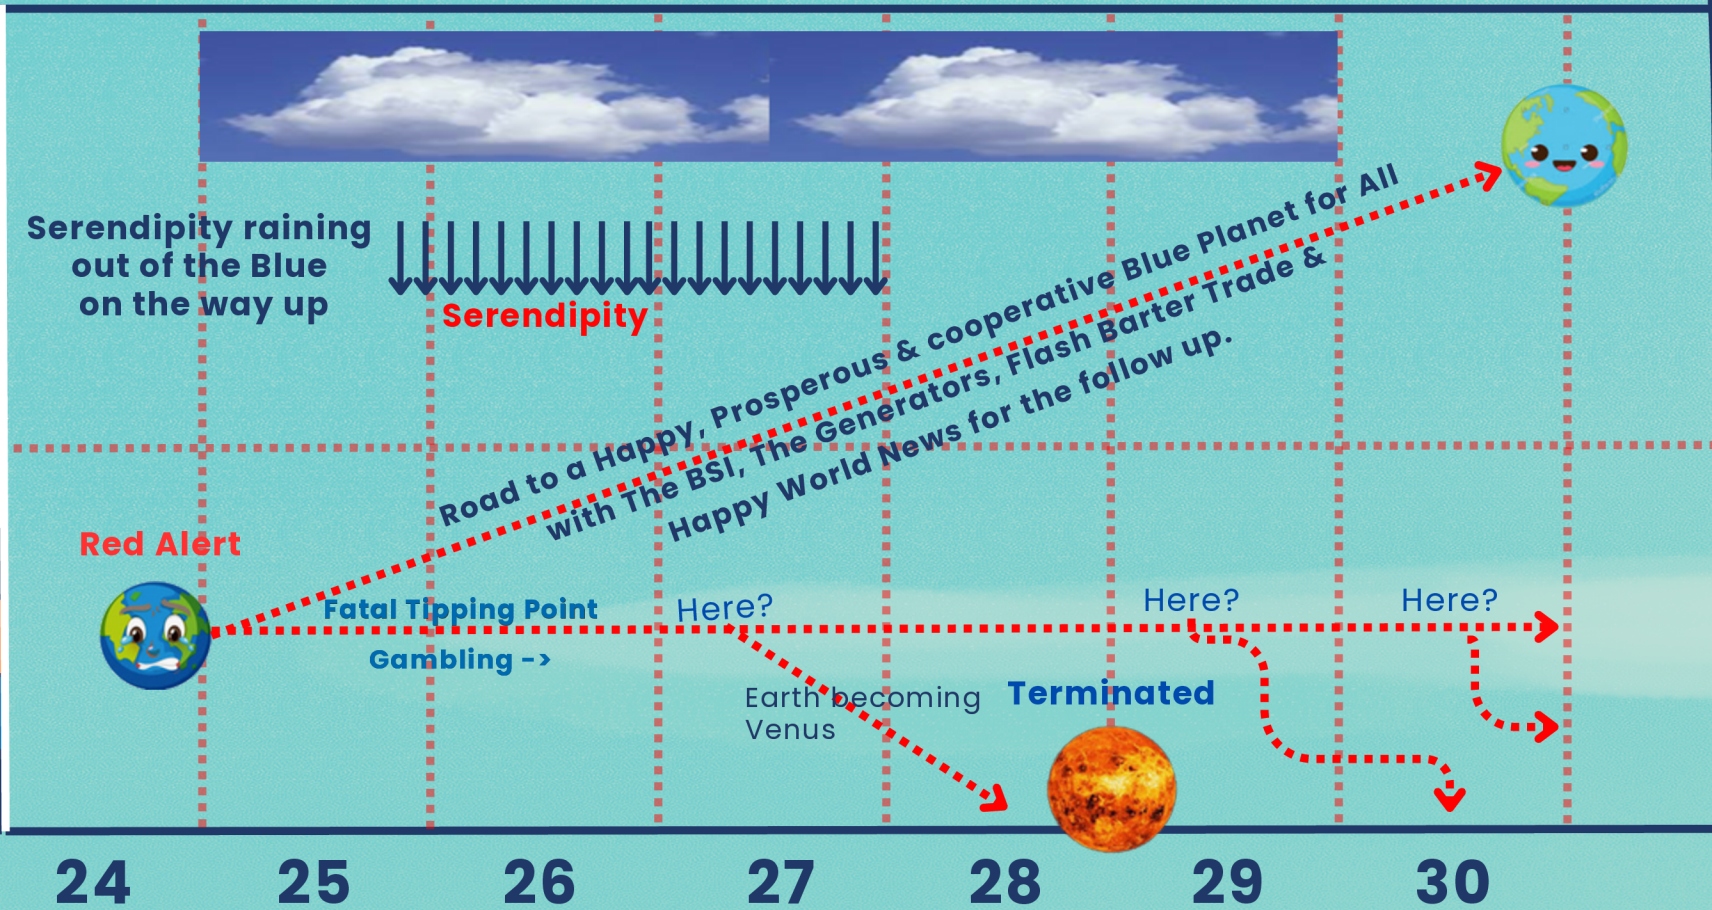

BSI Based Escape Route to a Happy World by 2030

The Road to **Heaven!**

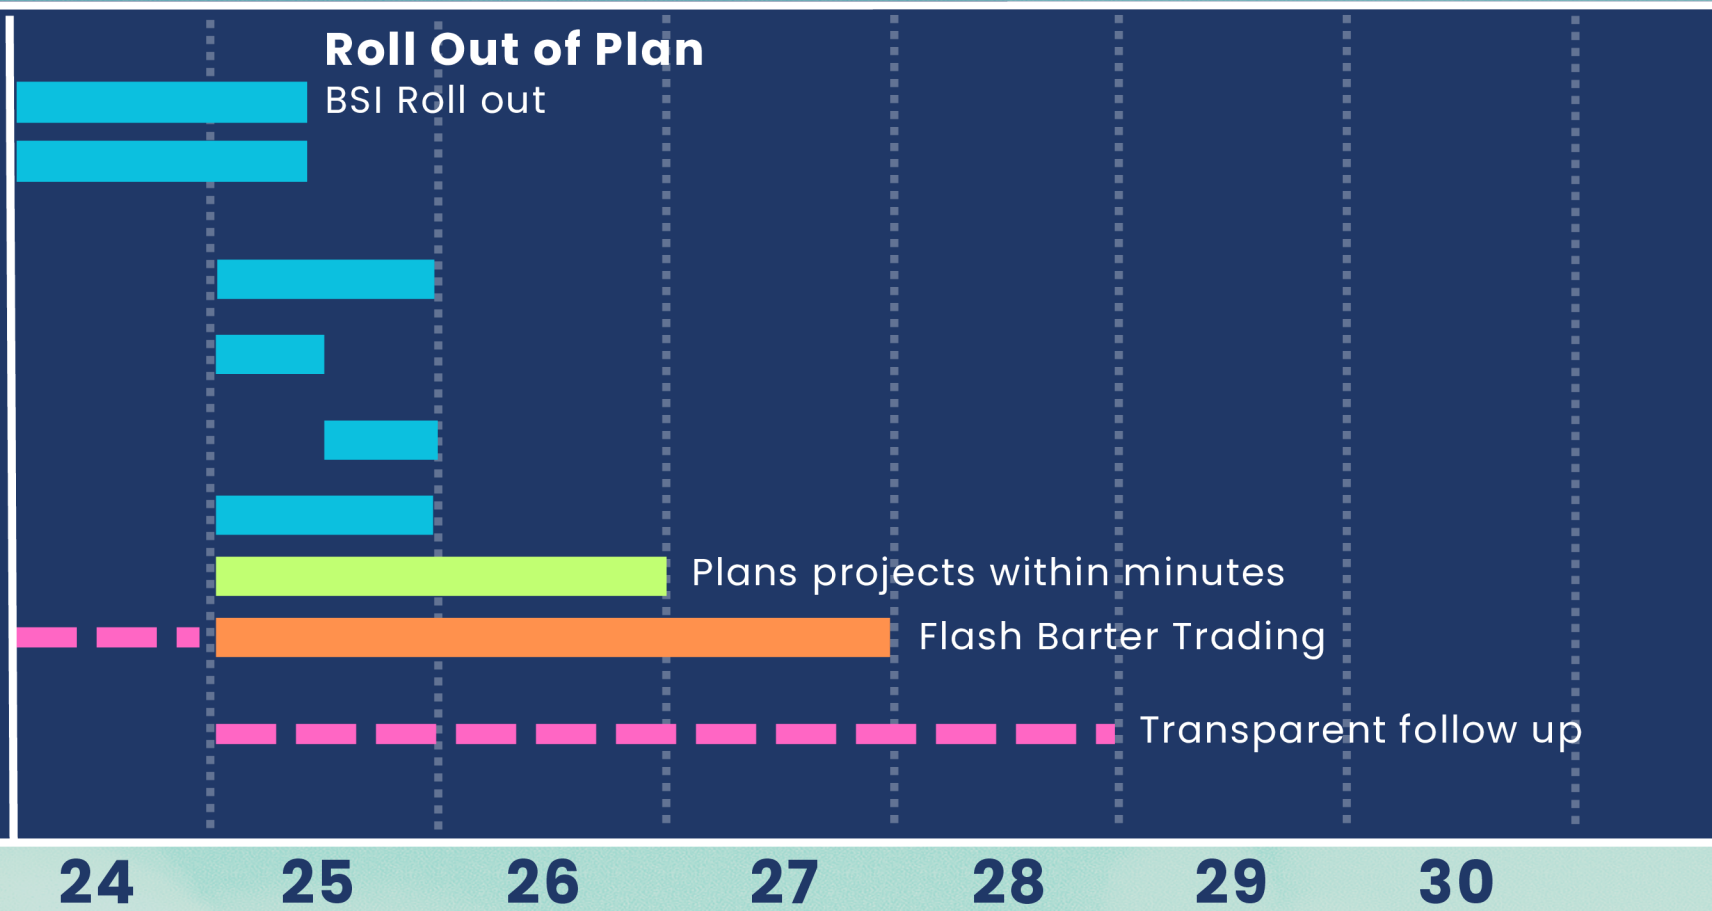

The Planet cooled down and prosperity, etc. for all

Flexible Share of the BSI Ltd. will be given to countries to speed up prosperity etc. The spending is up to the World Trade Port Ltd.

PLAN OVERVIEW 2024-2030

The Challenge

THE CLIMATE CRISIS IN 2024

- Earth Overshoot Day: August 1st – we are using more resources than our planet can replenish.
- Unpredictable climate tipping points threaten our future.
- 60% of global projects fail, causing immense CO2 emissions and missed opportunities.

The Solution

HAPPY WORLD BY 2030

- Goal: Shift the Blue Sky Index (BSI) from 3 to 8, creating a prosperous, sustainable, and cooperative world.
- Approach: Combining advanced technology, innovative methods, and global collaboration.

The Solution

1. The Blue Sky Index (BSI):
 - A revolutionary methodology to manage the unknown and generate serendipity.
 - Ensures efficient planning, execution, and outcomes.
2. The Generators (2025-26):
 - AI-powered tools to prepare sustainable projects in minutes.
 - Facilitates Flash Barter Trading, reducing CO2 and accelerating innovation.
3. World Trade Ports (2025-27):
 - Digital hubs for international cooperation and sustainable trade.
 - Leveraging knowledge and technology as currency for a greener world.
4. Happy World News (From 2025):
 - A platform to inspire global citizens with positive stories and vital knowledge.

The Plan

1. Key Milestones:
 - 2024-25: Roll out the Blue Sky Index to measure and manage global projects.
 - 2025-2026: Launch Generators for rapid, efficient project implementation.
 - 2025-2027: Establish World Trade Ports for sustainable barter systems.
 - 2030: Achieve a Blue Sky Index of 8—marking a Happy World.
